Bob,

We missed that line during edits. The correct date should be 4/9/2020. Corrected table below and attached. Thanks.

Mike

Mike,

I had a hard time with the 3/24 date below – what the heck is that and why is that where it is?

FL sounds fun.

I think we can handle the technical aspects. I have attached a revised schedule as a follow up to our discussion yesterday. It would be good to get your input on the schedule before we meet from Oxitec. One unknown is when Oxitec will get the info to us.

Mike

Hello Bob, hope you are doing well in the new year. As you may know, we are meeting with your BPPD team next Thursday (2/20) at 11:30 for a OX5034 project discussion and, more importantly, to discuss significant aspects of our proposed fieldwork/ approach for the collection of data. The latter is in response to a 75-day letter we received from your team. Will you be participating in this meeting? Given the importance of this discussion and potential impact on the timing of our EUP, your presence and input would be greatly appreciated. Oxitec's CEO, Grey Frandsen, will also be accompanying the team for this meeting. If this specific meeting does not work for you, perhaps we can schedule another brief meeting with you and possibly Rick while Grey is in town next week.

Please let me know your thoughts. Also, happy to give you a call to discuss if that would be helpful. Thanks Bob.

Regards,
Brad
